20. **Call Packs** Astro Telecommunications offers several calling plans for its products and services. Some of the plans provide for a fixed number of monthly usage minutes, ("Call Packs"). If you exceed your monthly Call Pack credits during the course of a service month, you will be billed overage on a per minute basis, the overage price per minute that has been assigned to your Call Pack. All of the "Call Packs" are quoted in terms of domestic minute usage, meaning the contiguous 48 states, and may be referred to on the Astro Telco website or by an Astro Telecommunications Customer service representative as "minutes or Call Packs". Should you choose to purchase a Call Pack, and until you advise Astro Telco otherwise in writing that you wish to change your plan, Astro Telecommunications will automatically bill your Account for the "Call Pack", each month, in advance, for the applicable service. Minute usage will be debited; overages will be billed at the applicable per minute rate(s) for your plan. Checking your voice mail from your phone is not counted against your Call Pack, or charged a per minute rate. Alaska, Hawaii are considered off shore, and international calling will be charged at a different rate than domestic calling, and a "Call Pack" "minute" therefore will not entitle you to a minute of Toll Free, off shore or international calling.

21. **Unlimited monthly plans** provide you with unlimited local and long distance domestic minute usage as defined above. International, Offshore and inbound Toll Free calling, the applicable per minute rate will apply and is not included in the Unlimited monthly plan; and if, for any reason, AstroTel believes that your usage of the Unlimited plan violates what it considers reasonable use, then AstroTel may, in its sole discretion with or without notice, terminate your Unlimited plan and immediately convert your Unlimited plan to a metered plan, or Call Pack set forth above. (Call Centers, heavy phone users will not qualify.)

Astro Telecommunications may also provide you certain bonus credit minutes and/or other promotional incentives (e.g., "tell-a-business" credits) upon fulfillment of the applicable promotion requirements.

23. **Short Duration Calls.** A short duration call ("SDC") is defined as a completed call with a call duration of six (6) seconds or less. The SDC percentage is defined as the number of SDCs divided by the total number of completed calls. If in any seven (7) consecutive day period the SDC percentage of Customer's traffic meets or exceeds 5% (the "SDC Threshold"), Customer shall have seven (7) days (the "Cure Period") to lower the SDC activity below the SDC Threshold. If Customer fails to remedy the SDC Threshold within the Cure Period Astro Telecommunications, may upon written or electronic notice, to Customer, disconnect Customer's interconnection(s) to Astro Telecommunication's network or block call destinations and or services that are incurring the SDC percentage in excess of the SDC Threshold.
